

NJSS SPECIAL NATIONAL PROCUREMENT COMMITTEE OF NPC

NPC/NJSS SPC IT 2022/01 – IT Equipment Procurement, WNCC_Network and Firewall Infrastructure_V4

The NJSS Special Procurement Committee of NPC invite sealed bids for the supply and provision of professional service for the installation of this network and firewall infrastructure.

The values and requirements of the network infrastructure that we need are listed below.

- ✓ **Single Operating System for Simplicity** - Support simplified network design, unified management from edge access to data centre and a consistent operator experience.
- ✓ **Unified Management** - Cloud-based and on-premises management with intuitive workflows and unified views of devices and clients for powerful network visibility, analytics, and control.
- ✓ **Intelligent Automation** - smoothly, safely, and quickly coordinate provisioning and changes using smart automation to validate and deploy error-free configurations and reduce manual tasks.
- ✓ **Faster Troubleshooting** - Real-time, network-wide visibility via distributed, embedded analytics to help prevent, detect, and fix issues before operations and users are impacted.
- ✓ **Always-on performance** - Cutting-edge hardware and powerful operating system that deliver high availability during live upgrades for the best user experience possible.
- ✓ **Dynamic Segmentation** - Unified role-based access and policy enforcement across wired, wireless, and WAN networks of all sizes.

The Firewall that we required should support **visibility & protection, networking & access, and management & reporting**. It should also merge with existing Judiciary Wide Area Network infrastructure and provide single cloud-base management portal.
